## TOWN WARRANT

---

### THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Sandown in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said Sandown on Tuesday, the eleventh day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

4. To see if the Town will vote to accept Town Road Aid: State to contribute \$1,350.26, Town to raise \$337.57.

5. To see if the Town will vote to authorize the Selectmen to administer or dispose of, at either public or private sale, property taken through Tax Collectors Deeds.

6. To see if the Town will vote to raise and appropriate the sum of \$600. to purchase a Good Roads V plow for snow removal.

7. To see if the Town will vote to accept a tract of land on the shore of Phillip Pond and raise and appropriate a sum of money to start improving same.

Said tract is a gift from Beverly Seeley of Santa Ana, California and Sandown, to be improved and used as a bathing beach and park for the people of Sandown.

8. To see what sum of money the Town will vote to raise and appropriate towards the War Memorial Fund.

9. To see if the Town will vote to discontinue and make subject to gates and bars, the so-called Cranberry Meadow Road. (State map road No. 63) In accordance with Chapter 188 Part 9 Revised Laws of 1945.

10. To hear the reports of Agents, Auditors and Committees, and pass any vote relating thereto.

11. To act on any other Town business that may legally come before said meeting.

Given under our hands and seal, this eleventh day of February, in the year of our Lord nineteen hundred and forty-seven.

James L. Paine  
Charles B. French  
Thomas A. LaCava  
Selectmen of Sandown.

A true copy of Warrant—Attest:

James L. Paine  
Charles B. French  
Thomas A. LaCava  
Selectmen of Sandown.

SCHOOL WARRANT

---

THE STATE OF NEW HAMPSHIRE

---

To the Inhabitants of the School District in the town of Sandown, qualified to vote in district affairs:—

You are hereby notified to meet at the Town Hall in said district on the seventh day of March, 1947, at eight o'clock in the P. M. to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed

for the ensuing year for the support of public schools, and the payment of the statutory obligations of the district, as determined by the school board in its annual report.

9. To see if the district will vote to appoint a committee of six consisting of the School Board and Board of Selectmen to study during the ensuing year and report, with recommendations, at the next district meeting (March 1948) the practicability of using the Town Hall building for a consolidated school house as well as a community and recreational center.

10. To see if the District will vote to raise and appropriate \$500.00 to be used as a deficiency fund to be used this school year (1946-1947).

11. To transact any other business that may legally come before this meeting.

Given under our hands at said Sandown this 5th day of February, 1947.

Maude L. Holmes

Maud E. Eaton

Nellie K. Geisser

School Board of Sandown.

### REPORT OF SUPERINTENDENT OF SCHOOLS TO THE SCHOOL BOARD AND CITIZENS OF SANDOWN:

February 1, 1947

Good Citizenship Tomorrow is based upon Good Schools today:

I am pleased to submit my fifth annual report as superintendent of your schools.

Teachers and Finance:

During the past year one of our greatest problems has been to maintain our teaching force. The usual factor of higher salaries elsewhere, plus the desire of some of the married teachers to remain at home since the ending of the war, have been the chief causes for the need for about twenty (approximately 50%) new teachers within this Supervisory Union. We have however, been fortunate to continue and in most instances improve our teaching forces.

Teachers salaries is undoubtedly the number one school problem throughout the country today. It is anticipated that much higher salaries for teachers will not only follow as a result of the present economic situation which is comparable to that which followed World War 1 but may continue after the crisis is over as a means of inducing more of the better high school graduates to look toward the teaching field as their chosen profession. The present low enrollment of prospective teachers in our teacher training institutions is indicative of an acute continued shortage for some years to come. From the state and federal levels of school finance, there is much indication that considerably more state and possibly federal money will be available (without more control) for local units. Should this outlook become a reality, teachers salaries and other necessary expenditures could be increased to a great extent without much if any increase in direct property taxes which are in many instances too high at the present time.

The bill proposed by our State Board of Education and now pending before the state legislature would increase the amount of state aid to local towns and cities throughout the state from around \$400,000 to \$2,080,000. If this proposal is adopted by the legislature, different individual towns within Supervisory Union No. 14 would receive from two to nearly four times as much as they are now receiving from state funds.

### Social Studies

The three R's (reading, writing and arithmetic) continue to be the basic foundation upon which our whole education system is based but to them other important phases have been added. In the social science field, the study of geography and history continue to stress the relationships between all peoples and na-

tions. As set forth as the key to the Constitution, adopted in London in Nov. 1945, of the United Nations Education, Scientific, Cultural Organization the following statement shows the need for continued consideration of other people and places. "That since wars begin in the minds of men, it is in the minds of men that defenses of peace must be constructed." In this atomic age, we are in the midst of one of the great revolutionary periods of history and upon our generation and its successors the task is imposed of discovering and organizing and establishing a multitude of new relationships among the peoples of this planet. In relation to this but under the title of Air Age Education the president of the National Education Association has recently stated "youth should develop a sense of personal concern for the solution of our problems brought about by aviation—all pupils have an obligation to study and, in so far as possible, to help solve the problems which the air age presents. Throughout our schools, children are becoming more aware of these problems through use of modern books, current publications as in some instances the use of motion picture machines and radios.

#### Guidance:

In order to more completely discover and develop the potentialities of each individual pupil for his own happiness and social usefulness, our teachers are attempting to cause each pupil to progress according to his own abilities. Promotions are determined on the bases of mental, physical and emotional development as well as of grade-achievement. Consideration is on the question of what appears to be for the best for each individual child. Standardized achievement tests were administered to children above grade two during the past year and mental ability tests are administered to each child at least twice during his school years. Results of

these tests are of a great help in knowing what to expect of the child and to check his progress in comparison to other children within the same and age and grade groups. The proficiency of our testing program is impeded in some instances by the lack of time on the part of teachers to correct and interpret the tests and in some instances because of lack of training of some teachers in the testing field.

#### Books and Other Teaching Aids:

We are continuing to purchase the newest books available for the various grades and subjects as the older ones become worn and outdated. An answer to the question "Why Don't We Get Our Books?" is found in the following quotation from Lloyd W. King, Executive Secretary of the American Textbook Publishers Institute. "It is true that schools opened in September of this school year with a shortage of text and reference books—and because of this shortage of stock about 12½% of the school books ordered had not been delivered." Some other reasons given for this situation are: (1) limited supply and increased demand for white paper from which books are made, (It is estimated that the demands for books of all kinds in 1946 is three times the 1943 volume of production.) (2) restricted pulp supply. (3) shortage of new machinery and therefore lack of press time. (4) strikes. Mr. King continues with estimates to the effect that, because costs are continuing to increase, textbooks prices will be by July 1, 1947, 40% higher than the 1942 prices. Within our area, we have renewed our book supply during the past few years to the extent that budgets for books will probably not be increased to a great extent for the coming year.

From the Twenty-fourth Yearbook of the American Association of School Administrators (1946) we

quote "One lesson from the educational programs of the armed services should be emphasized, audio-visual aids are vitally necessary in the educational equipment of a modern school. Projection equipment, radios and phonographs are essential." The moving picture projectors in Newmarket and Epping are being used regularly. Several of our Schools are fortunate in having continued rise of radios, and victrolas. A radio has recently been donated to the Clark School by a friend of Mrs. Sinskie's.

Some of the greater weaknesses within our area and common to it at the present time are poor physical plants, educational and economic inefficiency in organization in some instances, lack of satisfactory playground areas and limited curricula in our high schools. The state aided vocational offerings at the Dover High School which are free—except for transportation—are being utilized by a few students within this area. Courses in vocational agriculture, home economics, commerce, mechanic arts and beauty culture are available at Dover to any high school student who wishes to elect them. These vocational courses, with other more usual high school subjects provide a full high school course, the completion of which entitles the pupil to a regular high school diploma.

"If youth are vocationally proficient and have earning capacity, as well as the broadening educational offering which help them in their social and civic performances in life, they are on the road to being good citizens and will be well equipped to make their contributions to society."

#### Physical Fitness:

One of the educational trends throughout the country is general improvement of programs to develop physical and mental health. For twelve years the school

has a remarkable opportunity to join hands with other agencies in making physical fitness a major objective. Our school nurse Mrs. Cooper, makes a careful examination of each child once each year and has a watchful eye for any physical weaknesses or signs of illness or disease during each visit to the school. Many of the defects are corrected through the good efforts of parents although in some instances no corrections are made. (This fact may be more specifically noted in the nurse's report which follows). More care should be taken by parents in follow-up work to prevent more serious situations at later dates. The organized inter-scholastic sports in the high schools are valuable moves toward our objective. More playground space in those communities where practically none exists at the present time is a need not to be overlooked. With the coming reorganization of housing facilities in some cases will undoubtedly solve the problems of such limited school playground areas—organic power is built in accordance with the age-old law which means "physical exercise".

Three major health factors: namely, sleep, rest, and nutrition are taught in health and science classes; the third mentioned is being further encouraged by the government through financial aid in purchasing of milk, donation of food, and, in many instances, donations toward purchases of lunch room equipment. As our school buildings are improved or renewed to include running water, refrigeration and cooking facilities we may be able to have a school lunch program in every school.

#### Teachers:

Since my last report, Mrs. Lora Sinskie has continued her good work at the Clark School. Children attending that school have been fortunate to have had continuity in instruction as compared to those at the

Pine Grove School where ten different teachers have had charge during the past two years. From January to June 1946, Miss Sylvia Brown of Epping did excellent work there for a girl who had no professional teacher-training instruction; Miss Brown has, since her teaching there, entered Keene Teachers' College. During the present school year, Mrs. Ella Allen of Chester was the teacher at that school until December when she was forced to resign because of the ill health of her mother. Miss Edith Robinson of Derry substituted during a four weeks period and since the Christmas vacation, Mrs. Pauline Agard, who has had several years of teaching experience in Maine, has been teaching on a substitute basis.

If the district accepts the proposal of the selectmen as stated in the school warrant, and combines the two schools into one school to be housed in the Town Hall, it would be possible to operate two rooms with four grades in each room or one room with six grades (in case the district wishes to educate the seventh and eighth grade pupils in some other town). Either proposal would allow for more desirable organization from the teacher standpoint and would make possible many less instances of there being only one or two pupils per grade. The chief cause of the present comparatively high cost per pupil in Sandown is because of the small number of pupils per teacher. If one teacher were employed instead of two, a higher salary might be paid and still allow for a per pupil cost which would be lower in comparison to other elementary schools. One of the chief reasons for inability to get teachers has been our low salary offerings.

Reverend Edwin Pressy of Washington, D. C. and Columbus, Ohio has again in a generous way shown his feelings toward Sandown and the Pine Grove School;

he has forwarded money with which to purchase a 1947 Edition of Compton's Encyclopedia for that school. The set was ordered last summer and should be delivered soon. It would be well if a more modern set of encyclopedias could be provided for the children of the Clark School.

In conclusion, your attention is directed to the following reports of the school nurse Mrs. Constance Cooper, R. N. and the music supervisor Miss Prudence Hayes.

Again I wish to thank the members of the School Board, the teachers, pupils and parents for their continued cooperation in carrying on and improving the work of education in our community.

The members of your School Board continue to work for the betterment of the school. "They are helping to build the future" — and according to a recent publication, "perhaps more than any other group, they have the opportunity to shape the future of America".

Respectfully submitted,

Jonathan A. Osgood,

Superintendent

## HEALTH SUPERVISION

---

To the Superintendent of Schools and School Board of Sandown, N. H.:

Of the 27 pupils examined during the school year 1945-1946, the following cases were found and treatment was given as indicated:

	No. Cases	No. Receiving Treatment	No. Correc- tions
Underweight	3	3	
Nervous condition	1	1	
Defective teeth	8		2
Diseased tonsils	3		3
Adenoids	3		3
Defective breathing	1	1	
Enlarged glands	3	3	
Measles	8		
Mumps	5		

Pediculosis	2
Skin diseases	16
Number vaccinated	27

Constance Cooper, R. N.

## MUSIC DEPARTMENT

To the Superintendent and the School Board of Sandown, New Hampshire:

I hereby submit my first annual report as Music Supervisor.

The Sandown Schools have been carrying on an adequate music program during this school year. Although the upper grades are small, some two and three part music is being studied. All grades are very musical and eager to learn. Since it is of great interest, the music department is endeavoring to give them every opportunity to express themselves musically.

In order that pupils in school may have more fun with music, the first necessity is the use of songs that are intensely enjoyable. In the early grades, the music course provides a large number of rare and attractive folk songs, traditional songs and songs of moods, experiences and ideals of childhood. As the course progresses, simple melodies from great and noted composers are presented. The second provision which is desirable in order to give more pupils more fun with music is the provision of experiences in listening to enjoyable music.

A genuine growth in music means a gradual and progressive development. The music course is so arranged as to lead the pupil to this goal.

In conclusion, may I express my appreciation to all those who have made this year an enjoyable one.

Respectfully submitted  
Prudence Hayes
